at the beginning of each regular issue of the PCT Gazette.

(54) Title: **POSITIONING DEVICE FOR A REFERENCE BODY**

BEST AVAILABLE COPY

(57) Abstract: The invention relates to a positioning device for positioning a reference body on a rack frame for a cooking appliance, by means of which measured values of a cooking process can be detected by a sensor, which comprises a frame for holding at least one insertion column with a plurality of insertion levels, whereby said positioning device is secured to the rack frame by means of at least two joining pieces which extend substantially vertically upwards or downwards from a base element or upper element of the frame.
